

OPERATION AND MAINTENANCE AGREEMENT  
FOR STRUCTURAL MEASURES

THIS AGREEMENT made on December 7, 1976 is between the Soil Conservation Service, United States Department of Agriculture, hereinafter referred to as the Service, and the following organization, hereinafter referred to as the Sponsor:

The Sponsor and the Service agree to carry out the plan on the attached pages for the operation and maintenance of structural measures in the Little Washita River Watershed Project, State of Oklahoma. The measures covered by this agreement are identified as: Floodwater retarding structure 28.

Name of Sponsor South Caddo County Conservation District

By [Signature] Title Chairman, Board of Directors

This action was authorized at an official meeting of the Sponsor named immediately above on 12/7/76 at Anadarko, Oklahoma

Attest [Signature] Title Sec., Treas.

Soil Conservation Service, United States Department of Agriculture

By [Signature] Title State Conservationist

## OPERATION AND MAINTENANCE PLAN

### I. OPERATIONS

- A. The Sponsors will be responsible for and will operate or have operated without cost to the Service the structural measures in compliance with any applicable Federal, State and local laws, and in a manner that will assure that the structural measures will serve the purpose for which installed as set forth in the Work Plan.
- B. The Service will, upon request of the Sponsors and to the extent that its resources permit, provide consultative assistance in the operation of the structural measures.

### II. MAINTENANCE

- A. The Sponsors will:
  - 1. Be responsible for and promptly perform or have performed without cost to the Service except as provided in Paragraph III, Establishment Period, all maintenance of the structural measures determined by either the Sponsors or the Service to be needed.
  - 2. Obtain prior Service approval of all plans, designs and specifications for maintenance work involving major repair.
- B. The Service will upon request of the Sponsors and to the extent that its resources will permit, provide consultative assistance in the preparation plans, designs and specifications for needed repair of the structural measures.

### III. ESTABLISHMENT PERIOD

- A. During an Establishment Period, as herein defined, the Service will bear such part of the cost of any needed major repairs to the structural measures, including associated vegetative work, as is proportionate to the original construction costs borne by the Service in the construction of the structural measures except that the Service will not bear any of the cost for:
  - 1. Repairs to channels or portions thereof which do not have permanent linings such as concrete, riprap, or grouted rock.
  - 2. Repairs determined by the Service to have been occasioned by improper operation or maintenance, or both.
  - 3. Repairs applicable to municipal or industrial water supply or to any other purpose or which construction costs are not authorized to be paid for in whole or in part with funds appropriated to the Service.

4. Repairs that are mutually determined by the Sponsors and the Service as being items of normal maintenance rather than major repair and are not therefore in keeping with the spirit and intent of the Establishment Period provisions.
- B. The Establishment Period for structural measures (exclusive of any associated vegetative work) is a period of three years ending at midnight on the third anniversary of the date on which the structural measure is accepted.
- C. The Establishment Period for vegetative work associated with a structural measure is a period from date of acceptance of the initial vegetative work to midnight of the date on which the Service writes the Sponsors advising that an adequate vegetative cover has been obtained. However, this period shall not exceed two growing seasons or the end of the Establishment Period for the associated structural measure whichever is greater in time.
- D. As used in the two preceding paragraphs, and elsewhere in this Plan, the following words have the meanings described below:

ACCEPTED, ACCEPTANCE: The date structural or vegetative Measures are accepted from the contractor when a contract is involved, or the date structural or vegetative measures are completed to the satisfaction of the Service when force account operations are involved.

ADEQUATE VEGETATIVE COVER: A minimum of seventy percent (70%) cover of the desirable species, with no active rilling that cannot be controlled by the vegetation.

- E. Major repair may involve such things as (1) repairing separated joints, cracks or breaks in the principal spillway, (2) correcting seepage, (3) replacing significant backfill around structures resulting from major erosion damage, (4) major revegetation due to failure to obtain an adequate vegetative cover, and (5) restoring areas with significant erosion caused by unusual flow (volume, recurrence or extended period of time) in emergency spillways.
- F. No action with respect to needed repairs during the Establishment Period will be taken by the Sponsors or the Service which would lessen or adversely affect any legal liability of any contractor or his surety for payment of the cost of the repairs.

#### IV. INSPECTIONS AND REPORTS

- A. During the Establishment Period the Sponsors and the Service will jointly inspect the structural measures at least annually and after unusually severe floods or the occurrence of any other unusual condition that might adversely affect the structural measures. It is desirable the annual inspections be performed during the month shown below. Any supplemental inspections then determined necessary will be scheduled and agreed to at that time.

---

month

- B. After the Establishment Period the structural measures will be inspected annually by the Sponsors, preferably during the month shown below, and after unusually severe floods or the occurrence of any other unusual condition that might adversely affect the structural measures.

month

- C. After the Establishment Period the Service may inspect the structural measures at any reasonable time.
- D. A written report will be made of each inspection. The report of joint inspections will be prepared by the Sponsors with the assistance of the Service. A copy of each report will be provided by the party preparing the report to the other party within ten days of the date on which the inspection was made.

V. RECORDS

The Sponsors will maintain in a centralized location a record of all inspections performed both individually and jointly by the Sponsors and the Service, and of all significant actions taken by the Sponsors with respect to operation and maintenance. The Service may inspect these records at any reasonable time.

VI. GENERAL

- A. The Sponsor will:
1. Prohibit the installation of any structures or facilities that will interfere with the operation or maintenance of the structural measures.
  2. Obtain prior Service approval of the plans and specifications for any alteration or improvement to the structural measures.
  3. Obtain prior Service approval of any agreement to be entered into with other parties for the operation or maintenance of all or any part of the structural measures, and provide the Service with a copy of the agreement after it has been signed by the Sponsor and the other party.
- B. Service personnel will be provided the right of free access to the structural measures at any reasonable time for the purpose of carrying out the terms of this Plan.
- C. The responsibilities of the Sponsors under this Plan are effective simultaneously with the acceptance of the works of improvement in whole or in part.

VII. SPECIAL PROVISIONS

VIII. PROPERTY MANAGEMENT STANDARDS

Exhibit 2910 is attached and made a part of this agreement. It contains prescribed standards governing the utilization and disposition of property furnished by the Service or acquired in whole or in part by the Sponsors with Service-furnished funds.
