

WATERSHED PROTECTION
OPERATION AND MAINTENANCE AGREEMENT

THIS AGREEMENT, made and entered into this 2 day of October, 1958, by and between the Soil Conservation Service, United States Department of Agriculture, hereinafter referred to as the "Service", and the Seminole County Soil Conservation District, Hughes County Soil Conservation District, Okfuskee Soil Conservation District and the Wewoka Creek Water and Soil Conservancy District No. 2, hereinafter referred to as the "Sponsoring Local Organization", relates to the operation and maintenance of the following described works of improvement:

Thirteen (13) floodwater retarding structures; Sites 1, 2, 3, 5, 6, 8, 9, 11, 12, 13, 14, 17 and 18 in the Little Wewoka-Graves Creek Watershed as described on Tables 6 and 6A in the Little Wewoka-Graves Creek Watershed Work Plan. These structures are located in Seminole, Hughes and Okfuskee Counties, Oklahoma.

The estimated annual cost of operating and maintaining the works of improvement herein described is \$1,300, based on present construction costs.

I. OPERATION

The parties hereto agree as follows to the operation of the above described works of improvement:

A. The Service will:

1. Provide through the Sponsoring Local Organization such technical services as are available for assistance in the proper operation of the works of improvement.

B. The Sponsoring Local Organization will:

1. Be responsible for operation and maintenance simultaneously with acceptance of the work from the contractor.
2. Prohibit the installation of gates or other obstructions of any kind being placed in any portion of the principal or emergency spillways.
3. Prohibit any works to raise any portion of the spillways above the planned elevation or to deflect or decrease the planned flow through the spillways in any manner.
4. Prohibit the installation of dikes or other structures which may decrease the capacity of the flood channel or deflect the flow from the constructed channel bottom.

5. Take all other necessary steps to insure that the structures are permitted to function in the manner for which they were designed.

II. MAINTENANCE

The parties hereto agree as follows to the maintenance of the above described works of improvement:

A. The Service will:

1. Inspect the described works of improvement at least annually.
2. Prepare a report of inspection findings, recommending maintenance work needed, and indicating when such work should be completed. A copy of this report will be furnished the Sponsoring Local Organization.
3. Provide such technical services as are needed and available for preparing plans, designs and specifications and for maintenance items requiring this service.

B. The Sponsoring Local Organization will:

1. Inspect the works of improvement at least annually and after every major storm or the occurrence of any other unusual condition that might adversely affect the works of improvement to insure proper functioning of the structures and to check for possible damage or deteriorations. Items to be checked at time of inspection will include, but not be limited to, the following:
